Dear Sir:

In December of 1967, I wrote to you to request information about several suspects associated with the Kennedy assassination of 22 November 1963. The reply to that letter is enclosed.

Since receiving your reply, I have visited the National Archives and had interviews with employees of both the Department of Justice and the Federal Bureau of Investigation. Neither of these agencies had any further information and a representative of the F.B.I., informed me that his Bureau did not follow up on the investigations which were conducted by your police department. Also, there is no material on file in the National Archives which concerns these suspects.

It is not my intention or wish to embarrass any innocent individuals through my inquiry. However, having seen photographs of some of these people while in custody, I thought it rather strange that there weren't any published reports other than the limited information available in the radio-logs. Could you furnish me with any further information concerning these suspects?

Very truly yours,

Emory L. Brown Jr.

Dear Sir:

In Volume XXIII of the "Hearings Before the President's Commission on the Assassination of President Kennedy," the transcripts of radio transmissions of the Dallas Police Department for November 22, 1963 are reproduced (CE 1974). In these transcripts, several interesting matters are brought to light but the Report does not tell whether or not they were followed up. They are:

1. Suspects were observed leaving vehicles and going into an apartment at 5818 Belmont. At least one of them was carrying what was described as a rifle. (p. 884)
2. A suspect was seen jumping into a box car near the overpass and hiding there. This was reported by a T and P agent. (p. 878)
3. A suspect on the overpass rail road tracks, Cobb Stadium, carrying a rifle. (p. 885)

Since I can not find the outcome of these investigations in the volumes of the "Warren Report," I was wondering if perhaps you could advise me as to what the investigations of the above incidents turned up? If you will notify me, I shall appreciate it very much.

Sincerely,

Dear Mr. Brown:

Your letter of February 5th and its enclosures
have been received.

In response to your inquiry, the FBI, at the request
of President Johnson, conducted a prompt, intensive, objective and
thorough investigation of the assassination of President Kennedy.
All the material developed by this Bureau in connection with this
investigation was turned over to the Warren Commission for its
consideration, and the results of our inquiry were subsequently
made available to the National Archives by the Warren Commission.
The FBI has no authority to independently release any information
in these reports.

Mr. Emory L. Brown, Jr.

Dear Mr. Brown:

This is in reply to your letter of February 14, 1968, concerning records of the Warren Commission.

We do not know of any additional Dallas Police Department radio-log transcripts other than any that may be published among the exhibits of the Commission. If any radio transcripts or investigative reports concerning them were turned over to the Commission by the Federal Bureau of Investigation, they would presumably be in the National Archives. We should be pleased to make records of the Commission available to you in our research rooms in order that you can make a search for them.

Sincerely yours,

Dear Mr. Brown:

Your letter to the Attorney General concerning Warren Commission Exhibit 1974 has been referred to me for reply.

All the evidence pertaining to the assassination of President Kennedy gathered by the Warren Commission was transferred to the National Archives, where the bulk of the evidence is available for investigation by researchers. As noted in the letter of February 8, 1968 to you from the Director of the Federal Bureau of Investigation, this includes all the material developed by the FBI. The letter of February 21, 1968 to you from the Archivist of the United States indicates that the records of the Commission will be made available to you to allow you to search for any additional evidence pertaining to Exhibit 1974.

Accordingly, I regret that we are unable to be of further assistance.

Sincerely,
